

## **25) The Koran never claims (as Ayatollah Khomeini told the world and was able to convince Iranians) that it contains all the laws of the universe.**

The incorrect understanding of the Koran by religious leaders always had enormous catastrophic outcomes. In this subject Iranians paid a hefty price. Their country was set back years while the rest of the world is excelling in every aspect of knowledge.

Sometimes I wondered do these religious leaders really understand the Koran and just lie about it or do they believe these incorrect and irrational teachings of their institute (the center of Islamic teachings, established in the city of Gom and Najaf).

Koran has this to say to these impersonators of God:

**Koran 2:78** Among them are gentiles who do not know the scripture, except through hearsay, then assume that they know it. **79** Woe, then, to those who write the book with their hands and then say: This is from Allah, so that they may take for it a small price; therefore woe to them for what their hands have written and woe to them for what they earn.

The Koran claims to be nothing but this:

**Koran 80:11** Indeed, this (the Koran) is a reminder. **12** Whoever wills shall take heed. **13** In honorable scriptures.

**Koran 31:2** These are Verses of the Wise Book, **3** A Guide and a Mercy to the Doers of Good,-

**Koran 27:1** These are verses of the Koran,-a book that makes (things) clear; **2** A guide: and glad tidings for the believers,

**Koran 20:2** We did not reveal the Koran to you, to cause you any hardship. **3** Only to remind the reverent.

**Koran 2:2** This (the Koran) is the Book; in it is guidance sure, without doubt, to those who fear God;

If the above verse are not enough for the proof about this subject please note how many times God has repeated Himself about this subject:
